15+ years writing production software, since 2010

9+ Virtual Tour platforms live for government institutions

1 national reporting system for the Ministry of Education

7 verified certifications: AWS, DevOps, back-end & web

PROFILE

Software Engineer with **15+ years** of taking systems from requirements to production. I personally design and build **3D Virtual Tour platforms for Indonesian government institutions**, build **Odoo ERP modules** and **Laravel** applications, and run the Linux and cloud infrastructure behind them, owning each project end to end.

EXPERIENCE

IT Manager & Operations Manager

Oct 2025 – Present

PT. Teknologi GoVirtual Indonesia · Jakarta

- Design and code, hands-on, 3D Virtual Tour platforms **live for government institutions**: Kota Semarang, DKI Jakarta, Lampung Selatan, Kabupaten Lahat, Kota Bogor, Kota Medan, Kabupaten Deli Serdang, Desa Jatiluwih, RS Adhyaksa Jakarta and more.
- Personally executed the **production-to-live server migration** for all government platforms.
- Lead and actively code **Portal Eksplorasi Indonesia**, a national portal commissioned by **Bappenas**, now live.
- Built the company's internal **HRIS** (attendance, leave, payroll), a Project Management app and a **finance application**.
- Report directly to the CEO; manage IT procurement (CAPEX/OPEX) and vendors.

PHP · Laravel · Python · MySQL · Tailwind CSS · Pano2VR · Linux / CentOS · cPanel

IT Officer & Programmer

Apr 2024 – Jul 2025

Living World Grand Wisata · Bekasi

- Developed custom **Odoo modules**: Work Permit, High-Risk Permit, Goods Entry/Exit, Lost & Found and Survey Export to Excel.
- Led the full SDLC for internal applications: needs analysis, flowcharting, database design, build and go-live.
- Set up the mall's IT infrastructure during construction, coordinating vendors and equipment deployment.

Odoo · Python · PostgreSQL

EXPERIENCE (CONTINUED)

IT Manager & Software Engineer
Jun 2017 – Jan 2024

PT. I-Management Indonesia · Jakarta

- Led digital transformation for corporate clients, replacing **paper-based processes with digital workflows**.
- Engineered a gamified **e-Learning LMS**, a psychometric **Human Capital Assessment** portal and an interactive, game-based Class Portal.
- Managed IT for internal users and clients, including procurement and field implementation. Key clients: Bank Mayora, Wilmar Group, Mayapada Bank, Bank Papua and more.

PHP · Laravel · MySQL · JavaScript

IT Programmer
Jun 2018 – Mar 2024

PT. Inter Pan Pasifik Futures (Interpan) · Jakarta

- Built a cross-platform **e-Wallet application** for iOS and Android.
- Designed and delivered the trading websites **volksfx.com** and **fxinterpan.com** from concept to deployment.
- Managed the full SDLC for internal and client-facing business applications, from database design to production.

React Native · PHP · MySQL · JavaScript

PIC Sales & Marketing, Bogor Region
Jun 2016 – Dec 2016

X-TRO – XL Axiata · Bogor

- Led a **50-person sales force** and achieved the **highest regional sales volume within three months**.
- Handled IT and administrative support for the **XL WOW Project**.

Network & Software Engineer
Jul 2010 – Jun 2016

CV. Withtech · Bogor

- Built internet café and game centre networks: The Train Bogor (2010), Cyber Net Bogor (2011), Emperor Yogyakarta & Ambarawa (2013).
- Deployed **POS and inventory systems** for Highland Park Resort, Toko Indo Cahaya, CV Megaria and CV Wiyanata.
- Set up server and network infrastructure for PT. Sinar Gemilang (Lampung) and Balai Pengobatan Pelangi Kasih (Bogor).
