JONATHAN WOROTIKAN

IT Manager | Operations Manager | Senior Full-Stack Software Engineer

Kota Bogor, Jawa Barat • +62 878-804-99699 • jonathan.worotikan@gmail.com • https://jworotikan.github.io/

PROFESSIONAL SUMMARY

Results-driven IT Manager, Operations Manager, and Full-Stack Software Engineer with 10+ years of experience bridging technical software execution with strategic business operations. Proven track record in leading end-to-end development of nationwide 3D Virtual Tour platforms for government ministries (including Bappenas), developing custom Odoo ERP modules, managing Linux/CentOS server migrations, and directing cross-functional engineering teams. Experienced in CAPEX/OPEX IT procurement, vendor management, and reporting directly to C-Level executives.

TECHNICAL SKILLS & CORE COMPETENCIES

Programming Languages: PHP, Python, JavaScript, Node.js, VB.Net, SQL

Web & Frameworks: HTML5, CSS3, Tailwind CSS, XML, Laravel, React Native, Express.js

ERP & Databases: Odoo ERP (Module Development & Customization), MySQL, PostgreSQL, Firebase

Cloud, Server & DevOps: AWS, Linux/CentOS Administration, cPanel, Docker, Git, Server Migration, Network Architecture

Management & Tools: IT & Operations Management, SDLC Project Management, Digital Transformation, Pano2VR, Adobe Suite

PROFESSIONAL WORK EXPERIENCE

PT. Teknologi GoVirtual Indonesia — Jakarta **Oct 2025 – Present**

IT Manager & Operations Manager *Tech Stack: PHP, Python, Laravel, MySQL, Pano2VR, Linux/CentOS, cPanel*

- Lead all IT operations and cross-divisional engineering workflows, reporting directly to the CEO on operational KPIs and strategic alignment.
- Direct end-to-end development and deployment of immersive 3D Virtual Tour platforms hosted on official government infrastructure.
- Executed full production-to-live server migrations for government portals: *virtualtour.semarang.go.id*, *enjoy.jakarta.go.id/virtualtour*, *lampung-selatan.go.id*, *lahat.govirtual.id*, and *govirtual.id*.
- Spearhead ongoing development of **Portal Eksplorasi Indonesia** commissioned by Bappenas, while overseeing IT procurement (CAPEX/OPEX) and vendor management.

Living World Grand Wisata — Bekasi **Apr 2024 – Jul 2025**

IT Officer & Programmer *Focus: Odoo ERP Development & IT Infrastructure*

- Engineered custom Odoo ERP modules: Work Permit, High-Risk Permit, Goods Entry/Exit, Lost & Found, and automated Survey Export to Excel.
- Managed physical and network IT infrastructure setup during mall construction, including vendor coordination and hardware deployment.
- Led the complete Software Development Life Cycle (SDLC) for internal enterprise applications from needs analysis and DB design to go-live.

PT. I-Management Indonesia — Jakarta **Jun 2017 – Mar 2024**

IT Manager & Software Engineer *Clients: Bank Mayora, Wilmar Group, Mayapada Bank, Bank Papua*

- Led corporate digital transformation initiatives converting manual paper-based workflows into integrated digital platforms for enterprise clients.
- Architected and deployed a gamified e-Learning LMS platform, Human Capital Assessment portal (online psychometric testing), and Interactive Class Portal.
- Managed internal and external IT procurement, technical resource allocation, and nationwide field implementation.

PT. Inter Pan Pasifik (INTERPAN) — Jakarta **Jun 2018 – Mar 2024**

IT Programmer *Focus: Full-Stack Web & Fintech Application Development*

- Designed, built, and maintained custom corporate websites and business applications including *volksfx.com*, *fxinterpan.com*, and a cross-platform iOS/Android e-Wallet app.
- Managed full SDLC from conceptualization and database architecture through deployment and production

PROFESSIONAL WORK EXPERIENCE (CONTINUED)

X-TRO - XL Axiata — Bogor **Jun 2016 – Dec 2016**

PIC Sales & Marketing / Web Systems Support *Bogor Region*

- Coordinated regional sales and marketing operations while maintaining custom web applications and internal reporting systems across full SDLC phases.

CV. Withtech — Bogor **Jul 2010 – Jun 2016**

Network & Software Engineer *Focus: Network Architecture, POS Systems & Web Development*

- Designed and deployed network infrastructure for commercial centers (The Train Bogor, Cyber Net Bogor, Emperor Yogyakarta & Ambarawa) and corporate servers (PT. Sinar Gemilang Lampung, Balai Pengobatan Pelangi Kasih).
- Implemented Point of Sale (POS) & inventory systems for Highland Park Resort, Toko Indo Cahaya, CV Megaria, and CV Wiyanata; developed websites (*fideltoys.com*, *jamsejahtera.com*, *putikindonesiaberkarya.com*).
